

I have written to the FCC before to voice my deep concern regarding growing media consolidation. Once again, with this disgraceful politicking over at Sinclair, I am reminded why.

As a member of the American citizenry, the public airways are mine. In order to use MY airways free of charge, Sinclair and all other media companies are obligated by law to serve my - the public - interests. What is good for the public is free access to UNBIASED, LOCAL, news reporting about issues that matter to US - and this varies by locale - as well as healthy entertainment.

Sinclair's actions in wanting to show an ANTI-Kerry program on all of its supposedly "LOCAL" channels less than two weeks before the elections shows why we need to strengthen media ownership rules, not weaken them. If companies are not using MY airways to serve the public interest, then their licenses should NOT be renewed. That's the law. Thank you for supporting it.
